I want to thank your organization so much for providing hearing aids for my son, Roger Satri through Lakewood Speech & Hearing Center in Lakewood, Colorado. The gift of providing him the ability to hear more normally again makes the word thanks seem insignificant. My gratitude is overwhelmed by what you have provided for Roger. He has struggled much of his adult life because of his handicap. This new generation of hearing aid technology has opened his world. Recently he has opened his world. Recently he was walking away from a room & was in. He was in a hall about 25 feet away and separated by a wall. I made a comment he would

Thank You 

not have heard from that distance in the past. He hollered "I heard you!" and it was wonderful!

Thank you so much!
