Duane Cottrell's Testimony

I wanted to take a moment to thank Foundation for sight and sound for the wonderful things that they do. They are an incredible organization and really help change the life's of individuals that are struggling with disabilities. Prior to contacting them I was struggling with several issues regarding my hearing on many levels and felt like there really wasn't any hope at all for me because I could not participate in any conversations or hear hardly anything that was being said. I did not have the money for hearing aids, and I was referred over to the foundation for sight and sound. They approved my application for hearing aids and I was fitted for them and started wearing new Resound Live aids. All I can say is wow what a difference they are making in my life, I am now able to pick up on conversations in a restaurant and just every day events in my life. I am so grateful for the help that they have given me and would be lost without the hearing aids that they have provided me with. So to Mitch, Lori and the whole gang thank you and keep up the good work.
