Subject: Hearing Instrument for Filomena Anson

Hello Mr. Shapiro; How are you?

This is to thank you for all you and your foundation has done for my mother Filomena Anson.

As of Thursday, September 16, 2010 she has been able to hear substantially better. I now can speak most of the time in a normal volume without it sounding like I am yelling at her.

I would also like to recognize the kind and gracious work of Ms. Barbara Steinberg. She was so caring and understanding. A true professional in her field!

We would also like to thank the ReSound Company for its donation. My mother received a DOC by ReSound BTE - MK602040rB Hearing Instrument. As of today she is adapting very well.

Once again, your help in this matter is exemplary. I commend you and your foundation has done for my mother.

Attached are picture of said hearing instrument.

Thank you, James Anson of Wantagh, LI, NY
