Subject: Re: Help America Hear Testimonial

Hi, this is Greg Shriver. After I received my hearing aids it opened up a whole new world that I was missing out on when I couldn't hardly hear anything. It is so nice being able to hear the sounds of nature and my family. Before the hearing aids I had to have people repeat themselves every time I was being spoken to. If it wasn't for the foundation for site and sound it wouldn't have been possible for me to afford my hearing aids. I really appreciate the help from the foundation.

Thanks,
Greg
