Drum roll please!-----> I can actually hear that sound well now thanks to FSS Help America Hear Program. This morning, FSU Speech and Hearing Clinic had the pleasure of fitting me for my new hearing aids compliments of this wonderful program. After two years of being without a hearing aid due to expenses that exceed my budget, I am the proud owner of two new digital hearing aids. I must say I am hearing sounds of nature that I couldn't hear before, and I'm quite enjoying them. I am able to communicate with my coworkers more effectively and it's only been a few hours. I'm even looking good in them because they match my glasses and are now a part of my daily wardrobe. LOL!! Thanks Lori and Mitch for your willingness to help others through this program. I am smiling nonstop today.

Sincerely,

Jacklyn Burkett
