---

Janice received her new hearing aids about a month ago and she has just been beside herself. She says she can hear the wind blow and the birds singing. She enjoys the church sermons and events so much more now that she knows what is going on. She has even had to complain about her neighbors being too loud. She likes being able to hear the grandchildren talk when they think she cannot hear them. We all still have some adjusting to do to get used to our new Nanny, Thanks to you. We cannot begin to thank you enough! She says these hearing aids have been a huge blessing and we thank God for letting us find you and that you do what you do everyday. Thank you for your gift of hearing!

God Bless you,  
Ruth Maple and Janice Hicks
