

Dear Mitch, Lori & Members of the Foundation for Sight & Sound,

I can hear crickets chirping on a summers' night...I'd forgotten what a beautiful sound that is!

I've been wearing the hearing aid for a couple of days now & still adjusting...Sounds are now crisp

and 3 dimensional and I don't have to turn the TV up to get all the dialog!

I'm looking forward to testing some situations where I'd been struggling, like a busy restaurant or family gathering.

I didn't realize I was missing so much...

Thank you is so inadequate, but it's all I have...so from the bottom of my heart...

THANK YOU!

Yours truly,

Julie Marini
