Hi,

I just had the wonderful privilege of fitting Lloyd S. with his new left ear GN ReSound Live 9 LV-71-DV1. He and his wife and daughter were absolutely thrilled. He was immediately telling us to stop talking so loudly. He had been without an aid for a year and a half! He liked the look and fit and sound of the device. He was smiling and laughing the entire time. I will see him back again in 2 weeks or he will call if he doesn't need to return for any adjustments at that time. I gave him batteries and a hearing aid dehumidifier to help extend the life of the aid.

I will send a photo of Lloyd and me with his new aid. Our photographer, one of our staff here, will get it downloaded onto our shared server and then I can get it to you.

Thank you again for the wonderful joy you and Foundation for Sight and Sound have brought to Lloyd and his family. It is an amazing gift. Happy holidays,

Karen
