

Dear Sight and Sound,

I live hi in the Colorado Rockies where the Aspen tree leaves whisper in the breeze and the many many birds sing. How I can hear again and enjoy mother nature again.

Being able to hear again is such a blessing - the creek that flows and tumbles, to be able to enjoy everything again.

When you can't hear people talk it limits your activities, so now I enjoy my activities and people again.

Thank you so much.

Sincerely Yours,
Marlene Smith
