

Dear Foundation for Sight and Sound,

I recently received hearing aids through your foundation via Louisiana Hearing Specialists, LLC and wanted to let you know what a great organization you have. As a single mother, I did not have the finances to be able to afford hearing aids. Without the help of The Foundation of Sight and Sound I never would have realized the true extent of my hearing loss. I no longer have to ask my family and friends to repeat themselves and they do not need to be looking at me for me to hear what they are saying. I had conditioned myself to read lips. I could hear someone talking to me but could not understand what they were saying. I cannot tell you how aggravating and helpless I felt. I can now listen to the television on a normal volume setting. I had not realized how much I was not hearing until I put my hearing aids on. I can now hear the birds chirping, my 4 yr. old daughter even sounds different and I can hear her talking to me now. I still cannot believe how many sounds I was not hearing. Even in my day to day routine of answering the phone at work, I answer the phone now and hear the other person and do not have to ask them to repeat themselves.

Thank You so much for your dedication to truly "HELPING AMERICA HEAR". without you I would not be hearing every keystroke I make as I type this letter. I will forever be grateful for your help. I also cannot say enough about Lindsey Aguilar Levier (Louisiana Hearing Specialist, LLC) without her I would not have known about your awesome program.

Sincerely,

Regina Trahan
