Subject: Wonderful Intity

I wanted to take a moment to tell you that I have referred two of my patients to you guys in the last 3 months and they were able to get hearing aids with your help. This is a wonderful option I can provide to my patients that do not have the income to get hearing devices on their own. It was an awesome experience to be able to help my patients get these and provide better hearing for them. I will continue to refer to Sight & Sound.
